

SUNMIZER FIRST NEIGHBOR PROGRAM DETAILS

The SunMizer First Neighbor Program offers an installation discount and referral incentives to the first homeowner in a defined neighborhood that purchases and installs a SunMizer Solar Roofing System. The following program guidelines are subject to change at any time and without notice.

1. Xandex Inc. dba SunMizer Solar Roofing reserves the right to define neighborhoods and choose the best qualified applicant(s) within each neighborhood for First Neighbor and ancillary Solar Neighbor program incentives.
2. Qualified First Neighbor solar installations must be visible from the street.
- 3. First Neighbor Participants will receive an installation discount of 20% of Total installed system cost.**
4. First Neighbor Participants agree to allow temporary SunMizer yard signage placement for a time designated by SunMizer, not to exceed 6 months from date of installation.
5. SunMizer First Neighbor participants must agree in writing to allow images and/or video of their SunMizer solar installation to be used in SunMizer marketing materials.
6. First Neighbor Participants must agree in writing to allow SunMizer to utilize their street address in targeted neighborhood advertising (limited to their defined neighborhood boundaries) for example “drive by xxxx Maple St. to see how great SunMizer would look on your roof”
7. First Neighbor Participants must be willing to answer questions from interested neighbors (at their convenience of course) and pass on a SunMizer brochure.
- 8. First Neighbor Participants will receive a \$500 cash referral fee for each neighbor they refer to SunMizer who then installs a SunMizer Solar Roofing System.**
9. First Neighbor Participants must acknowledge that they have been informed that their installed system cost for the purposes of claiming any State or Federal incentive, will be minus the installation discount. (Total Installed system cost – First Neighbor Discount = Final Installed System cost for claiming tax credits and other incentives.)
